Subject: Response to Extension Request Letter

Dear Mr. Ditmore:

On May 19, 2016, the Kansas Department of Health and Environment (KDHE) received a letter from Coffeyville Resources Refining & Marketing, LLC (CRRM) requesting an alternative to the flare performance testing requirements under 40 CFR Part 60, Subpart Ja for the facility located in Coffeyville, Kansas.

KDHE does not have the authority to either grant or deny your alternative flare performance testing requests for this regulation at this time. This request, as well as verification of the flare performance testing deadline, should be forwarded to the United States Environmental Protection Agency, Region 7 for their consideration.

If you have any questions about this determination or about the compliance status of this facility, please contact me at JAhumada@kdheks.gov or call at (785) 296-0243.

Sincerely,

Javier Ahumada
Chief, Compliance and Enforcement Section
Bureau of Air
